

2015/16 ANNUAL REPORT

WATERBERG DISTRICT MUNICIPALITY FIRE SERVICES

MISSION

To respond to fires, hazardous materials incidents and rescues on land to save lives, property and the environment.

VISION

To be a committed Division in the Municipality to all we serve.

CORE VALUES OF THE DIVISION

We value a rich humanistic tradition and committed to service, professionalism, discipline, integrity, accountability and pride.

GUIDING PRINCIPLES

As members of the Waterberg District Municipality Fire Services, we believe in the following principles:

- The safety of our members and the citizens we serve is paramount,
- We will provide the highest quality of service to all who call upon us,
- We believe in service, professionalism, discipline, integrity, accountability and pride.
- We recognize and respect the rights of all we serve,
- We are committed to the preservation of life and property of our citizens,
- We believe that the professional development of our members will lead to improved quality of service,
- We will promote a positive environment that inspires teamwork.

SYNOPSIS

Waterberg District Municipality is a Category C municipality found in the Limpopo province.

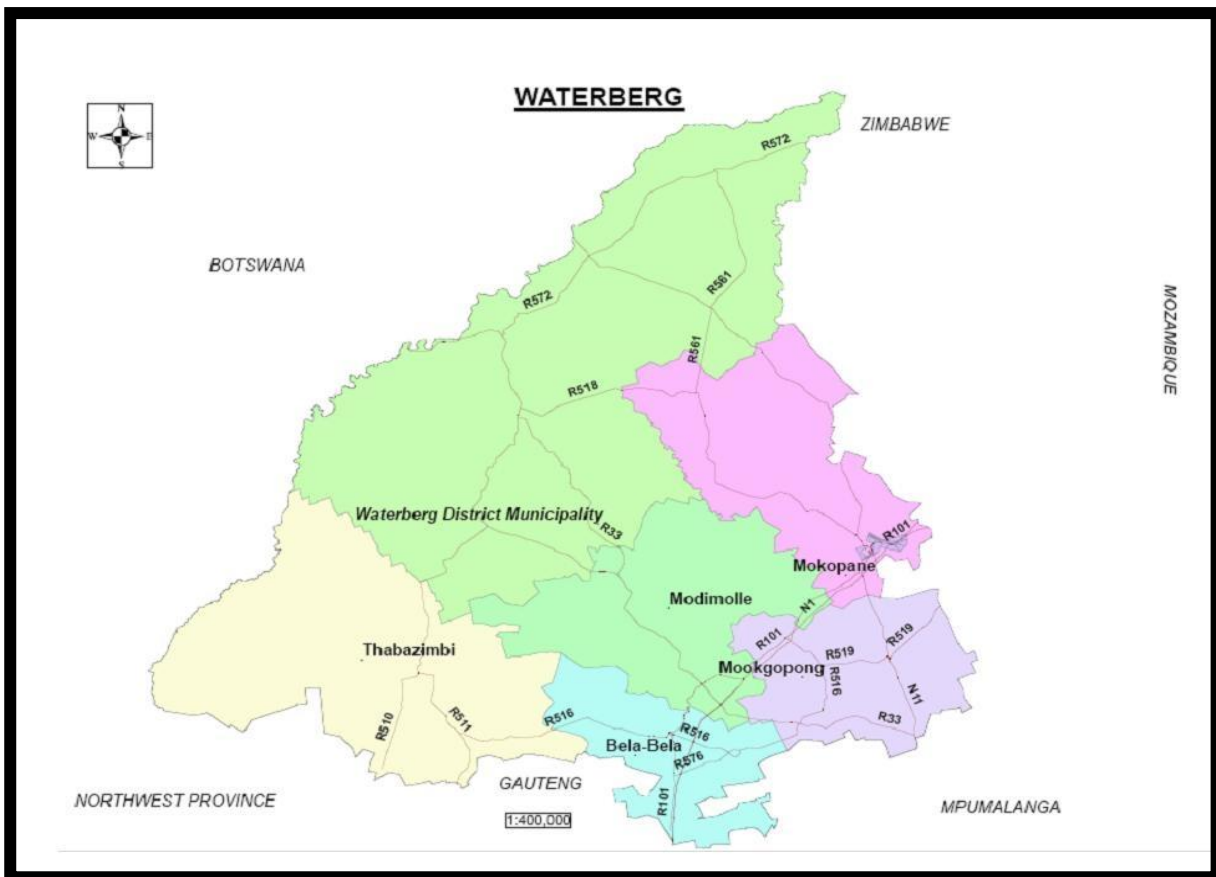

It is geographically located on the western part of Limpopo province and shares its five-border control point with Botswana, namely Groblersbridge, Stokpoort, Derdepoort, Zanzibar and Platjan.

It is strategically located in sharing its borders with Capricorn District Municipality on the north and Sekhukhune District Municipality in the east. The south-western boundary abuts the North West, while the Gauteng province lies on the south-eastern side.

The Waterberg District Municipality is comprised of six local municipalities, namely Bela-Bela, Lephalale, Modimolle, Mogalakwena, Mookgopong and Thabazimbi with a total area of 45 579.62 km², population of 679 336 and total household of 179 866 as stated on table below.

LOCAL MUNICIPALITY	AREA(KM ²)	% of DISTRICT	POPULATION	HOUSEHOLDS
Bela-Bela	4 000 km ²	8.07	66 500	18 068
Lephalale	14 000km ²	28.3	115 767	29 880
Modimolle	6 227 km ²	12.57	68 513	17 525
Mogalakwena	6 200km ²	12.52	307 682	79 395
Mookgopong	4 270.62km ²	9.2	35 640	9 918
Thabazimbi	10 882km ²	21.97	85 234	25 080
District Municipality	45 579.62 km²	92.63	679 336	179 866

Waterberg IDP 2014/15

Distribution of local municipalities in Waterberg District

Bela- Bela is strongest agricultural area in the Waterberg and shows a comparative advantage as strong services sector both in the national and provincial economies. It is also a large scale tourism activities and the hub of tourism outside the proclaimed nature reserves and the Waterberg Biosphere, every year lots of veld fires are encountered. On 1 September 2012, the popular nature reserve and holiday resort, Sondela Nature Reserve, suffered substantial damages when a devastating veld fire tore through the reserve.

Lephalale is Category B (in terms of SANS 10090): Limited central business district, smaller commercial or industrial areas normally associated with small towns and decentralized areas of cities and large towns. Moderate risk, characterised by the development of Medupi, Matimba power station and Caltex industrial nearby. Successful control and extinguishing of fires depends on sufficient appliances responding with adequate manpower and arriving within reasonable time, EXXARO and Eskom assist in responding to emergencies as they are designated services.

In **Modimolle**, Vaalwater was initially developed as service centre for local farms. It is in the beneficial position to develop as hub of the Waterberg Biosphere.

In **Mogalakwena**, Bakenberg, Rebone and Beauty/Ga-Seleka, are very low municipal service points. The emphasis should be on creating opportunities for establishing satellite stations for community services.

Mookgophong is primarily a service centre supporting strong agricultural hinterland and existing mining activities in close proximity to the town, veld fires are the concern in the area.

Thabazimbi is dominated by a single sector; mining. The future role of the node will increase in importance as mining activities shifts from iron ore to platinum.

Municipality	Number of Informal Settlement(s)
Bela-Bela	2
Lephalale	3
Modimolle	3
Mogalakwena	4
Mookgophong	2
Thabazimbi	6

MECHANISMS FOR PROVISION OF SERVICE

The Local Municipalities renders the service on behalf of the district through service delivery agreements (SDAs).

LEGISLATIVE MANDATE OF THE DISTRICT

The Constitution of the Republic of South Africa Act 108 of 1996: Section 41 (1)(h)

All spheres of government and all organ of state within each sphere must-

(h) Co-operate with one another in mutual trust and good faith by:-

- (i) fostering friendly relations;
- (ii) assisting and supporting one another;
- (iii) informing one another of, and consulting one another on, matters of common interest;
- (iv) co-ordinating their actions and legislation with one another;
- (v) adhering to agreed procedures; and avoiding legal proceedings against one another.

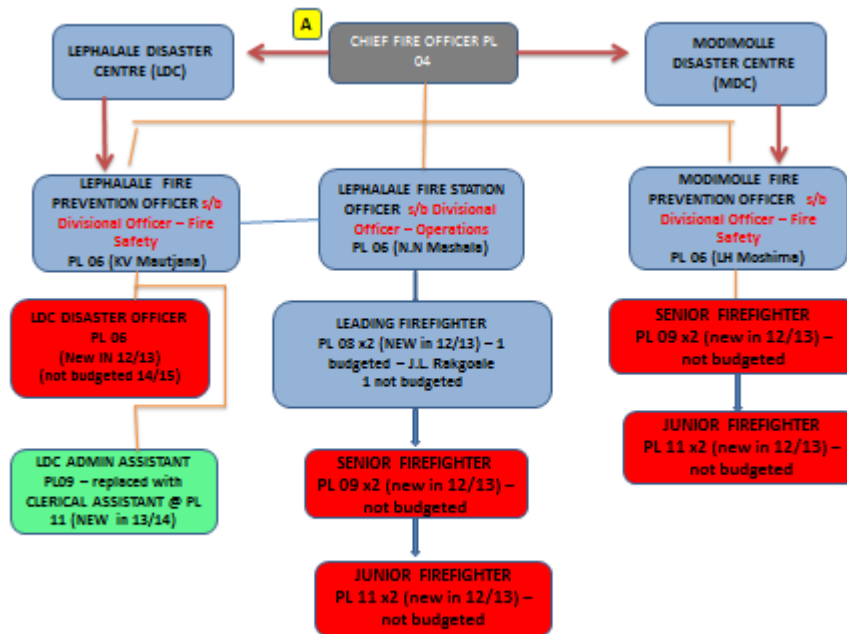

Municipal Structures Act 117 of 1998:- Chapter 5 Section 84 (1)(j):

A district municipality has the following functions and powers:

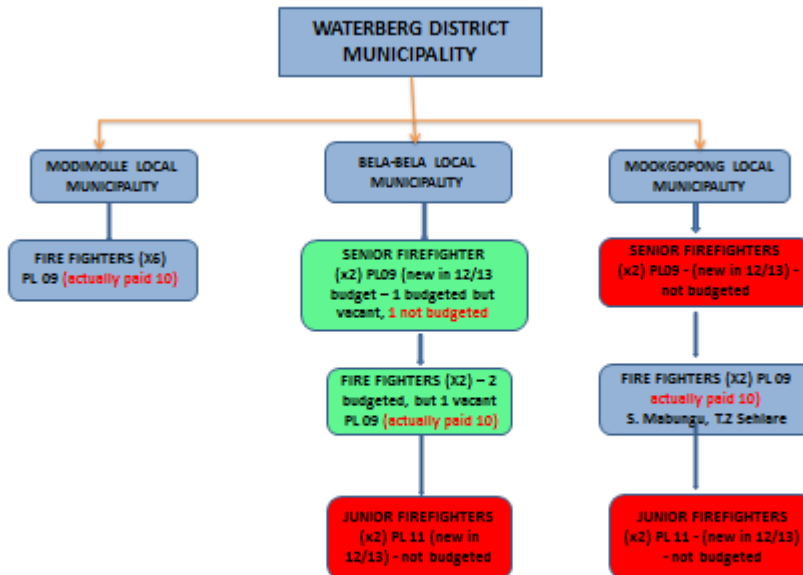

Fire Fighting Services serving the area of the district municipality as a whole, which includes-

- (i) Planning, co-ordination and regulation of fire services;
- (ii) Specialized fire fighting services such as mountain, veld and chemical fire services;
- (iii) Co-ordination of standardisation of infrastructure, vehicles, equipments and procedures;
- (iv) Training of fire officers.

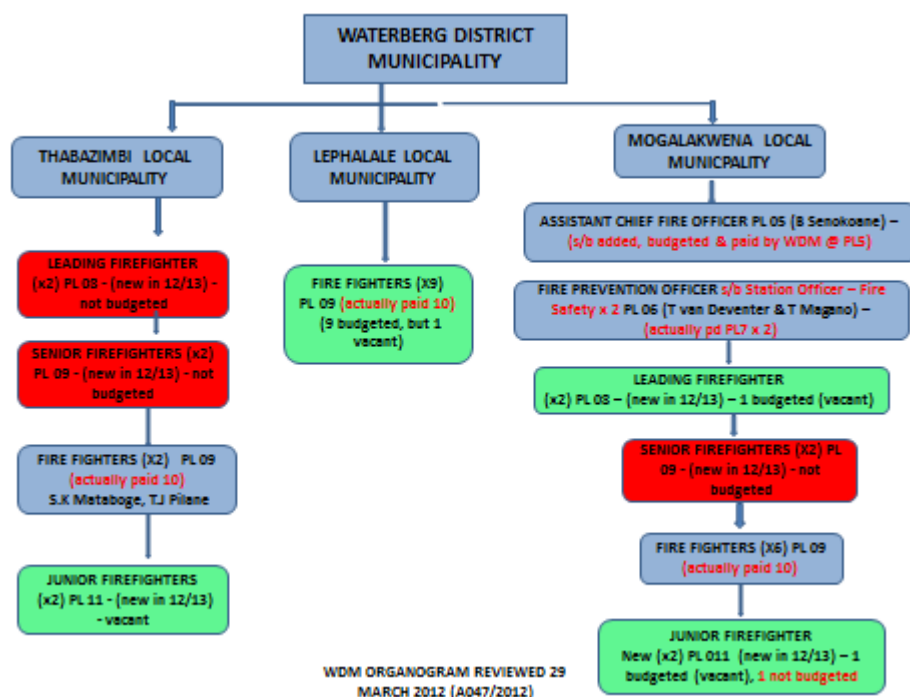

ORGANOGRAM

WDM ORGANOGRAM REVIEWED 29 MARCH 2012 (A047/2012)

WDM ORGANOGRAM REVIEWED 29 MARCH 2012 (A047/2012)

Thabazimbi	91	34	0	13	0

Below are expressed in graphs

MAJOR ACCIDENTS

On Friday, 01 April 2016, there was a taxi accident where seven people were killed

LESSON LEARNED FROM THE INCIDENT

- Mogalakwena firefighting service did not respond because they were on strike.

CHALLENGES AND RISKS

There are a number of challenges that are encountered and the general control of the fire fighters.

- Non-response to accidents due to strike,
- Non-compliance to fire related legislations and regulations,
- Non submission of quarterly reports,
- Poor care and maintenance of fire vehicles (damages to the vehicles are not reported),
- Loss of equipment/apparatus due to accidents and theft,
- Improper handling of incidents,
- Serious personnel shortage,
- Utilization of members without prescribed qualifications,
- Poor logging of calls,
- Lack of supervision during emergencies,
- Late response to emergency scenes,
- Lack of professionalism,
- Salary escalations without WDM consultation,
- Improper self-appointment to higher positions,
- Non implementation of Fire Service Tariffs,
- Approval of Building plans performed by traffic officers,
- Concern activities dealing with the safety conditions as contemplated in section 6(2) of the National Building Regulations and Building Standards Act, 1977 (Act 103 of 1977) in relation to plan analysing, building site meetings and building inspections to establish whether fire safety requirements are met,
- Inability to implement Fire Brigade Services Act and National Fire Codes due to SDAs,
- Non-accountability of assets,
- Improper use of protective clothing,
- Due to cash flow problems, some local municipalities are unable to procure uniform for their fire fighters,
- Municipalities allowing new recruits to drive municipal vehicles without undergoing driver pre-assessment,
- Difficulties to access the Fire Fighters for drills/training
- Mode of communication during emergency response.

CHALLENGES EMANATING FROM STAFF SHORTAGE

- Accumulation of more hours of work than required,
- Fatigue to fire fighters which can lead to injuries, heart related disorders and deaths,
- Frustration amongst the fire fighters due to long hours of work,
- Late response to emergencies due to lack of proper supervision,
- Utilisation of unqualified people during emergencies.

2015/16 WDM IDP [fire services]

Firefighting services is the function of Waterberg District Municipality but it is not individually prioritised as a function as contemplated in 2015/16 WDM IDP

Municipal priority issues – Disaster Management (Fire Services included).

It is important to note that Disaster Management & Fire Services are not one function as each has its own specific legislation. Firefighting service is critical as it provides first response/first line of defence to life-threatening emergencies and in area where fire services is weak/ without capacity, a routine emergency can have disastrous consequences.

Two separate meetings (01 September 2014 and 12 August 2015) were arranged and held with officials from Provincial COGHSTA and National COGTA to clarify on the issue of Disaster Management and Fire Services. It was reiterated that Disaster Management and Fire Services are not one function as each have its own specific legislation and further that Fire Service is a line function which needs a short reporting line and Disaster Management is a coordinating function within the District.

Problem with staffing

Municipality	Existing staff	Gender		Compliance to SANS 10090: Community protection against fire
		Male	Female	
Bela-Bela	1	1	0	None
Lephalale	8	7	1	None
Modimolle	6	5	1	None
Mogalakwena	9	7	2	None
Mookgophong	2	2	0	None
Thabazimbi	2	2	0	None
WDM	5	5	0	None
TOTAL	33	29	4	

Maintenance of the vehicles

Currently the district does not have maintenance plan/contract in place, the local municipalities service the vehicles at their own workshops and sometimes they utilise external service providers/dealerships. Lack of maintenance contract creates a problem wherein if the water pump on the fire truck get broken or need a service, the dealership will be in no position to repair it as it is not their competency.

Budget.

Firefighting service and Disaster budget is **R30 087 812** with firefighting service having 90% which is a year-on-year increase of 1.8%. The total firefighting and disaster management functions thus constitute 19% of the total operating budget excluding the IDP capital expenditure portion.

Fire fighting service is rendered by local municipalities on behalf of WDM and claims are submitted on regular basis. Provision of **R15 817 608** is allocated to all local municipalities and this represents 9.7% of the total operating budget. The reason for the lower year-on-year increase is due to a detailed inspection of local municipal payslips resulting in a more accurate projection of salaries per local municipality.

The Operating Budget that was allocated to our 6 (six) Local municipalities within Waterberg District Municipality for Fire Fighting Services were distributed as follows:-

Bela- Bela	R 1 148 186
Lephalale	R 3 206 592
Modimolle	R 2 577 660
Mogalakwena	R 6 420 599
Mookgopong	R 1 174 071
Thabazimbi	R 1 290 500

CAPITAL PROJECTS

None

EXISTING FIRE STATIONS

Municipality	Type of building	Ownership
Bela-Bela	Fire station	Local Municipality
Lephalale	Fire station	District Municipality
Modimolle	Fire Station	District Municipality
Mogalakwena	Fire station	Local Municipality

	Tata	Bush Pumper	

DOCUMENTATIONS

TYPE	REMARKS/COMMENTS
Reservist Policy	To be submitted to LLF
Vehicle Replacement Policy	In a development stage
Maintenance programme	None
By-Laws	In a review process
Operational Guide	To be submitted to LLF

SOPs	To be submitted to LLF
Operational Plan	None
Incident Management System (IMS)	Yes, implemented by DoRT through Nathoo Mbenyane Engineers
Emergency Response Plans 1. Ammonium Nitrate	To be submitted to LLF

CURRENT ARRANGEMENTS

WDM is having staff compliment of 33 fire personnel on the establishment; this includes the five that are directly appointed by the district, which is way below the required number by National Fire Codes.

Lack of funding is the leading course of inadequate staffing which lead to non-compliance to SANS 10090 Community protection against fire.

CURRENT VACANT POSTS

Municipality	Budgeted vacant posts
Bela-Bela	2
Lephalale	1
Modimolle	0
Mogalakwena	2
Mookgophong	0
Thabazimbi	2
Total	7

FUTURE FIRE STATIONS

WDM is planning to negotiate the donation of land to build new fire stations especially in Mookgophong and Thabazimbi municipalities

FUTURE SATELITE FIRE STATIONS TO BE CONSIDERED

Vaalwater : Modimolle
Pienaars Rivier : Bela-Bela
Witpoort : Lephalale
Steenbokpan/Bulgerivier : Lephalale
Rebone : Mogalakwena

CRITICAL POSITIONS WITH TACTICAL SKILLS REQUIRED

Divisional Officer : PL06
 Station Officer : PL07
 Leading Fire Fighter : PL08

TRAINING

Type	Number of personnel attended
<u>Initial</u> <i>It shall include basic training and specialist courses</i>	0
<u>Continuation</u> <i>The training shall be conducted regularly on the station to consolidate and practice knowledge and skills during initial training and help ensure that proficiency is maintained.</i>	0
<u>Conversion</u> <i>To update skills/knowledge as a result of the acquisition of new equipment or changes in policies and procedures</i>	0

VISITS

Type	Number	Reason for none compliance
Pre-Fire Planning	0	Personnel shortage
Risk	0	Personnel shortage

DEDICATED FIRE SAFETY/PREVENTION UNIT

There is no dedicated fire safety unit,
Currently there are three (03) fire prevention officers in the District.

DAMAGE AND THEFT TO FIRE SERVICES APPARATUS

Thabazimbi

RETIREMENTS AND RESIGNATIONS

1x Station Officer from Lephalale has resigned.

INJURIES TO WDM MEMBERS

None

APPOINTMENT OF ADDITIONAL PERSONNEL

None

PROMOTIONS

None

AWARDS

None

CONCLUSION

Fire service is a line function of the organisation, which means it contribute directly to the provision of services to the customer (Community), it is critical as it provides first response to life-threatening emergencies and in area where service is weak/ without capacity, a routine emergency can have disastrous consequences, this means that it deserve to be put as WDM priority issue.

Schedule 4 Part B of The Constitution of the Republic of South Africa, 1996:

*"The following local government matters to the extent set out in Section 155(6)(a) and 7: Air pollution, Building Regulations, Child Care facilities, Electricity and gas reticulation, **Firefighting Services** etc."*

Organisational arrangements must take into account the paradigm shift from response-oriented operations towards a more proactive and predictive methodology of delivering fire service.

Adoption and implementation of the following as service delivery standard is significant; **SANS 10090: Community protection against fire, NFPA 1201: Standard for providing emergency services to the public and NFPA 1710, Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Career Fire Department.**

Modimolle town is prone to hazardous chemical accidents, the town does not have dedicated route for trucks carrying dangerous goods.

WDM is losing competent Firefighting Officers for greener pastures to other municipalities.
