Part 1 – Annual Budget

1.1 Mayor’s Report

To be presented separately

1.2 Recommendations

That:

1. The Draft 2024/25 Medium-term Revenue and Expenditure Framework, tabled in accordance with the Municipal Finance Management Act, 2003 (Act 56 of 2003) be considered for the community consultation process.
2. That the proposed tariffs for the Draft 2024/25 MTREF as outlined in Annexures 2 to 5 be considered for the community consultation process.
3. Council approves the multi-year operating and capital projects appropriations for the financial year 2024/25 and indicative for the two projected outer years 2025/26 and 2026/27.
4. That the Accounting Officer:
 - 4.1 In accordance with chapter 4 of the Systems Act:
 - (a) Make public the Draft 2024/25 MTREF and other documents referred to in section 17(3) of the MFMA;
 - (b) Invite the local community to submit representations in connection with the Draft 2024/25 MTREF;

4.2 Submit the Draft 2024/25 MTREF:

- (a) In both printed and electronic formats to the National and Provincial Treasury;
- (b) In either format to any prescribed national or provincial organs of state and such other municipalities as may be affected by the budget.

5. The Executive Mayor be mandated to engage DDM Political Champion, COGTA and National Treasury in a view to address the unfunded mandate (Fire-fighting and environmental health).

1.3 Executive Summary

Section 16(1) of the Municipal Finance Management Act (MFMA) stipulates that the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.

The 2024/25 Medium-term Revenue and Expenditure Framework will be tabled for approval by Council in May after considering the inputs from the public consultation process.

National Treasury issued MFMA Circular No No 128 on 8 March 2024, to guide the compilation of the 2024/25 MTREF.

Considering the current economic conditions with the outlook still uncertain due to the economic effect of the pandemic, it is prudent for the WDM to ensure that stabilizing the finances remains a core focus for the Draft 2024/25 MTREF. WDM's IDP and service delivery priorities were reviewed as part of the municipal planning and budget preparation process. Funds were appropriated accordingly in line with municipal priorities. A critical review was undertaken by management on expenditure in line with cost containment to eliminate noncore and nice to have items in the 2024/25 MTREF.

The main challenges experienced during the compilation of the 2024/25 MTREF can be summarised as follows:

- The ongoing difficulties in the national as well as Waterberg District Municipality economy;
- The need to reprioritize both IDP capital and operating projects within the existing resources available given the declining cash position of the municipality;
- The growing deficit which threaten WDM financial sustainability; and
- Affordability of the IDP capital and operating projects.

Some of the guiding principles for the budget are as follows;

- Tariff increases should be affordable.
- Projects and programmes must be within affordability limits.
- Only funded projects that are ready for implementation will be prioritised in the 2024/25 financial year.
- The operating expenditure baseline was reduced, and the focus must be on efficiency gains and the principle of value for money (doing more with less, while prioritising service delivery).
- Some programmes will be deferred to the outer years in order to ensure that the WDM approves a funded budget.
- The budget must be aligned to the IDP priorities.
- 2023/24 Adjustment budget priorities and targets as well as the baseline allocations contained in the approved adjustment budget.
- The grants allocated in DORA.
- Inflation has been assumed at 4.9% in 2024/25, 4.6% in 2025/26 and 4.6% in 2026/27 in line with Municipal Budget Circular 128 for the 2024/25 MTREF.
- Salary increases has been assumed at 4.9% in 2024/25, 4.6% in 2025/26 and 4.6% in 2026/27.
- Realistically anticipated revenues to be collected
- Cash backed accumulated funds from previous year's surpluses not committed for other purposes.

Overview of the Draft 2024/25 Medium Term Revenue and Expenditure Framework

Section 17(1) of the MFMA requires that the annual budget of the municipality must be in the prescribed format as follows:

- Setting out realistically anticipated revenue for the budget year from each revenue source.
- Appropriating expenditure for the budget year under the different votes of the municipality.
- Setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year.
- Setting out the estimated revenue and expenditure by vote for the current year and actual revenue and expenditure by vote for the financial year.

MTREF Funded ✓ / Unfunded ✖		15	ü	ü	ü	ü	ü	ü	ü	ü	ü	ü

The total operating revenue increased by 5% for the 2024/25 financial year when compared to the 2023/24 Adjusted Budget. Total operating expenditure for the 2024/25 financial year amounts to R194 million, which is an increase of 5% from the 2023/24 Adjusted Budget, resulting in a Budgeted deficit of R31 million.

The shortfall in the 2024/25 operating budget of R31 million is unfunded as such spending should be kept at a minimum level in order to reduce this projected deficit. The underfunded functions, municipal health and fire-fighting services, as well as the Abattoir operations has a huge impact on this deficit. The full amount of the shortfall relates to an actual operating shortfall in the 2023/24 year whereby the revenue projected during the 2023/24 year will not be enough to fund the budgeted 2024/25 operating expenditure. This is a major cause for concern as indication is that the Municipality will continuously be short on the budget in future as revenue is fixed per grants and substantial portion of operating expenditure is salary related which often increases by more

than the CPI or relevant equitable share percentage increase.

The accumulated deficit from the previous financial years as well as the projected deficit for the current financial year is worsening the financial position of the Municipality. This has a detrimental effect on the municipality's ability to fund the budget shortfall beyond 2024/25 and IDP projects required to meet service delivery mandate.

WDM is grant dependent which makes it difficult to generate own revenue. Management has developed Revenue enhancement strategy to address the growing deficit. The strategy entails combination of bringing additional revenue streams and also increase revenue derived currently within the abattoir services. The strategy also explore various ways of reducing and containing operational costs. The revenue enhancement strategy is attached as Annexure 5.

Attached as Budget Table SA10 is the funding measurement test which indicates that currently only 2024/25 budget year is funded, 2025/26 and 2026/27 financial year are unfunded.

Due to funding constraints only one capital expenditure has been provided for in the draft 2024/25 Medium-term Revenue Expenditure Framework.

1.4 Operating Revenue Framework

WDM general principle when compiling the Operating Budget entails ensuring that the budget must be cash funded, Growth parameters must be realistic and be based on historic patterns adjusted for current reliable information and in any line with any budget circulars issued by National and Provincial Treasury; Tariff adjustments must be fair and that revenue from Government Grants and Subsidies must be in accordance with the amounts promulgated in Division of Revenue Act, proven provincial transfers and any possible transfers to or from other municipalities.

The District has limited opportunities for revenue due the reduced powers and functions impacting negatively on the municipal ability to raise sufficient revenue to fund both operational and capital budget.

In terms of the MFMA, a credible and funded budget must be tabled based on realistic estimates of revenue that are consistent with budgetary resources and collection history.

The following key components are central to the Municipality revenue

- National Treasury's guidelines and macroeconomic policy;
- Growth in the municipal economic development;
- The rate of abattoir revenue collection is currently expressed as a 100% of annual billings. Cash flow is assumed to be 100% of billings, due to the majority of clients being cash clients, plus no provision for doubtful debt as old disputes have been written off and there are currently no new disputes or long outstanding debts;
- Determination of tariff escalation rate
- Increased ability to render new service, Air Quality licensing

The following table is a summary of the 2024/25 MTREF (classified by main revenue source):

Table 2: Summary of revenue classified by main revenue source

Total Revenue (excluding capital transfers and contributions)	151 289	148 006	154 937	159 512	160 234	160 234	160 234	165 077	167 289	169 788

Figure 1: Main operational revenue categories for the 2022/23 financial year

- Revenue generated from transfers and subsidies contributes 97% of the revenue basket of the Waterberg District Municipality.
- Service charges which entails revenue realized from Abattoir services contributed 1% to the revenue basket.
- Interest received is income from external investments and interest on the current account.

Based on the current reserves and prevailing investment rates, a provision of R 2.5 million is made in this regard. The draft budget for 2024/25 is 11% above the adjusted 2023/24 budget due to deteriorating cash position.

- The National allocations in terms of the Division of Revenue Bill for 2024/25 are set out as follows:

The following table provides a breakdown of the operating grants and subsidies allocated to the Municipality over the medium term.

		159 354	161 257
			163 433

Tariff Setting

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When tariffs were revised, local economic conditions, input costs and affordability of services were taken into considerations. National Treasury encourages municipalities to keep tariffs increases as low as possible.

1.4.1 Abattoir Services

The tariff benchmarking exercise was conducted with the three private abattoirs that are operating within Waterberg Region being, Mookgophong, Mokopane and Thabazimbi in the previous financial year. WDM Abattoir tariffs are currently below what the competitors are considered competitive by management against all private abattoirs operating within the Waterberg District Municipality. A 30% tariff increase is proposed for the 2024/25 financial year.

The proposed tariffs for the financial year 2024/25 are attached as Annexure 2.

1.4.2 Fire-fighting services

The proposed increase on Fire Fighting tariffs 2024/25 is 25% increase. The tariffs includes the transport permits for dangerous goods transportation as well site inspections fee for building plans (fire protection plan). Mogalakwena local municipality which is providing the service on behalf of WDM must be encouraged to implement these particular Tariffs for the purposes of cost recovery.

No fire-fighting income has been budgeted for due to the trend of the past years where very little to no fire-fighting income was transferred to WDM, thus leading to the conclusion that any income budget for this purpose will be unrealistic.

The proposed tariffs for the financial year 2024/25 are attached as Annexure 3.

1.4.3 Municipal Health Service

The proposed tariff increase for the municipal health services is 20%. The proposed tariffs for the financial year 2024/25 are attached as Annexure 4.

1.5 Operating Expenditure Framework

WDM expenditure framework for the 2024/25 budget and MTREF is informed by the following:

- Balanced budget – operating expenditure should not exceed operating revenue unless there are existing uncommitted cash-backed reserves to fund any budget shortfall;
- Funding of budget over MTREF informed by section 18 and 19 of MFMA;

Table: 4 Summary of operating expenditure by standard classification category

Choose name from list - Table A1 Budget Summary

Surplus/(Deficit) for the year	(15 532)	(27 486)	(17 339)	(26 630)	(24 934)	(24 934)	(24 934)	(31 099)	(35 659)	(42 494)

The operating expenditure equates to R194 million in the 2024/25 financial year and escalates to R202 million in the 2025/26 financial year. Total operating expenditure increased by 5% against the 2023/24 adjustments budget.

Figure 2: Main operational expenditure categories for the 2022/23 financial year

Employee costs

Personnel expenditure increase in 2024/25 to R132 million for officials (2023/24 adjusted – R126 million), including contributions to long service awards and post-retirement medical aid actuarial valuations. Due to budgetary constraints management took a decision to not budget for the filling of vacant positions; overtime and performance bonus in the 2024/25 MTREF budget. As a result the total employee related costs amounts to R132 million (2023/24 R127 million), which is a 5% increase on 2023/24 adjusted budget.

Provision is made for a general increase of 4.9 % for all employees. The Salary and Wage Collective Agreement for the period 1 July 2021 to 30 June 2024 has come into effect. The preparation of the 2024/25 is based on the concluded 3-year SALGA Circular No.1/2023 - Salary and Wage Collective Agreement dated 17 September 2021 and linked to projected average CPI percentage in terms of the January 2024 monetary committee statement.

Remuneration of Councilors

The cost associated with the remuneration of Councilors is determined and informed directly by the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The determined upper limits of salaries, allowances and benefits of members of Council are Gazette annually 44 in December/January. Provision for the 2024/25 increase of 5% has been made.

The total salaries and allowances for Councilors amounts to R10 million (2023/24 – R9.2 million) and makes up 5% of the total operating expenditure, however this expenditure is subsidized by a portion of equitable share allocation specifically for this purpose

Depreciation and amortization

Provision for depreciation and amortization is informed by the Municipality Assets Management Policy. Depreciation is considered a proxy for the measurement of the rate of assets consumption. The 2024/25 budget is R6.2 million which equates to a decrease of 5% when compared to the 2023/24 adjustments budget.

Other expenditure

This group of expenditure comprises of general related expenditure which includes amongst others contracted services, audit fees, subsistence & travel, municipal services, annual insurance, financial system costs and allocations to all the Waterberg Local Municipalities' Disaster Centre's for the operation thereof. When compared to the 2023/24 adjusted budget this group has been increased by 5% in line with realistic anticipated revenue.

To support austerity measures as well as considering financial constraints faced by the municipality, no budget increases have been granted for catering and some expenditure votes have not been increased while others have been reduced.

1.6 Capital expenditure

Due to funding constraints capital expenditure has been provided for in the 2024/25 Medium-term Revenue Expenditure Framework. The only project budgeted for financial year 2024/2025 is Mayoral Vehicle for R700 000.

1.7 WDM Annual Budget Tables

The following pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2024/25 budget and MTREF as approved by the Council. Each table is accompanied by explanatory notes on the facing page.

Explanatory notes to MBRR Table A1 - Budget Summary

1. Table A1 is a budget summary and provides a concise overview of the WDM budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasizes the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
 - a. The operating deficit (after Total Expenditure) is positive over the MTREF
 - b. Capital expenditure is balanced by capital funding sources, of which
 - i. Transfers recognized is reflected on the Financial Performance Budget;
 - ii. Internally generated funds is financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.
4. The Cash backing/surplus reconciliation shows that the budget is funded
5. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor

Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and

capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.

2. Note the Total Revenue on this table includes capital revenues (Transfers recognized – capital) and so does not balance to the operating revenue shown on Table A4.
3. Note that as a general principle the revenues for the Trading Services should exceed their expenditures. WDM does not have any trading services.
4. Other functions that show a deficit between revenue and expenditure are being financed from equitable share revenue sources reflected under the Finance and Administration.

Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

1. Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating

performance in relation to the organizational structure of the WDM. This means it is possible to present the operating surplus or deficit of a vote.

Explanatory notes to Table A4 - Budgeted Financial Performance (revenue and expenditure)

1. Total revenue is R 194 million in 2024/25 and escalates to R202 million by 2025/26.
2. The budgeted revenue is less than the budgeted expenditure, this shortfall in the 2024/25 operating budget of R 31 million is funded for by available accumulated cash, and as such spending should be kept at a minimum level in order to reduce this projected deficit.

The underfunded health and fire-fighting services has a huge impact on this projected loss, since some projects which are not fully funded by grants have been included in this tabled budget.

1. Council operates an Abattoir, which is a trading service. The trading service is supposed to break even, but it is currently running at a loss of R 7.2 million for 2024/25 (R 6.9 for 2023/234).
2. Employee related costs are the main cost drivers within the municipality and alternative operational gains and efficiencies will have to be identified to lessen the impact of wage increases in future years.

Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, standard classification and funding source

1. Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
2. The operating expenditure portion of the IDP is included in Tables A2 to A4 – Transfers & Grants, the reason being that a portion of the operating expenditure on the IDP relates to projects implemented on behalf of local municipalities, although at this stage, the individual local municipalities and allocation to each have not yet been identified.

Explanatory notes to Table A6 - Budgeted Financial Position

1. Table A6 is consistent with international standards of good financial management practice, and improves understandability for councilors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. Table 11 is supported by an extensive table of notes (SA3) providing a detailed analysis of the major components of a number of items, including:
 - Call investments deposits;
 - Property, plant and equipment;
 - Trade and other payables;
 - Provisions non-current;
 - Changes in net assets; and
 - Reserves
4. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
5. The Municipal's equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community; and
6. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition, the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
5. From the table it can be seen that for the deficit deteriorated from considering the requirements of section 18 of the MFMA, it can be concluded that the adopted 2010/11 MTREF was not funded owing to the significant deficit.
6. As part of the budgeting and planning guidelines that informed the compilation of the 2023/24

MTREF the end objective of the medium-term framework was to ensure the budget is funded aligned to section 18 of the MFMA.

7. As can be seen the budget has been modelled to progressively move from a deficit of

Explanatory notes to Table A9 - Asset Management

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
2. National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE. The WDM meets both these recommendations.

Table 15 MBRR Table A10 - Basic Service Delivery Measurement

N/A

Part 2 – Supporting Documentation

2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the MMC for Finance.

The primary aim of the Budget Steering Committee is to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the WDM IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- That the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

2.1.1 Budget Process Overview

The 2024/25 IDP/Budget Process Plan was adopted by Council in August 2022. The 2023/24 mid-year performance assessment was conducted in January 2024 which determined the 2023/24 Adjustment Budget and formed the baseline of the 2023/24 Operating Expenditure budget (considering the mSCOA fundamentals, both zero-based and incremental budgeting was used to arrive at the budgeted operating expenditure).

The table below provides a high level budget process overview for WDM 2022/23 Budget.

QUARTER 1	ST 1 ST IDP REPRESENTATIVES FORUM	APPROVAL OF 2023/24 PROCESS PLAN	PUBLICATION OF THE PROCESS PLAN	PLACEMENT ON THE WEBSITE

2.1.2 IDP and Service Delivery and Budget Implementation Plan

The IDP and Budget, marks the 1st review of the new term of overall strategic framework for our district for the period 2022/23. The process started in September 2022 after the tabling of the IDP Process Plan and the Budget Time Schedule for the 2023/24 MTREF in August.

The WDM IDP is principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan.

The IDP has been taken into a business and financial planning process leading up to the 2023/24

MTREF, based on the approved 2021/22 MTREF, Mid-year Review and adjustments budget. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2022/23 MTREF, each department had to review the planning process, including the setting of priorities and targets after reviewing the mid-year performance against the 2021/22 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

2.1.3 Financial Modelling and Key Planning Drivers

The following key factors and planning strategies have informed the compilation of the 2023/24MTREF:

- Policy priorities and strategic objectives
- 2022/23 Adjustment Budget and Performance against SDBIP
- 2021/22 audit outcome
- DORA
- Cash Flow Management Forecast for the next 3 years
- Improved and sustainable service delivery
- Sustaining the going concern of the municipality

In addition to the above, the strategic guidance given in National Treasury's MFMA Circular 112 & 123 have been taken into consideration in the planning and prioritisation process.

2.1.4 Community Consultation

The institution has held four (4) IDP representative forums. The first was held 19 August 2022, the second was held 30 November 2022 and the third was held 22 March 2023 and the last Forum was held 19 May 2023. The 2023/24 strategic planning session was held on the 07 - 09 March 2023. The 2023/24 final IDP and Budget will be tabled on the 30th May 2023.

2.2 Overview of alignment of annual budget with IDP

The budget and IDP preparation process ran consecutively and joint IDP/Budget Steering Committee meetings and Representative Forum hearings was held during the year. The main priorities of the IDP projects are listed below and were considered during the project prioritisation phase for inclusions of projects into the budget:

N C	PRIORITY
1	Municipal Health & Environmental Management
2	Air Quality
3	Firefighting Services
4	Disaster Management
5	Abattoir
6	Local Economic Development & Tourism
7	Community Participation and Good Governance
8	Financial Viability
9	Municipal Roads & Storm Water
10	Municipal Support & Institutional Development
11	Sports, Arts and Culture
12	Water & Sanitation
13	Electricity
14	Transport

Due to funding constraints all priority areas could not be accommodated in the 2022/23 budget.

WDM IDP Strategic Objectives

KPA	Strategies objectives
Spatial Rationale	To coordinating spatial transformation.
Basic Service Delivery	To coordinate and monitor social and infrastructure development for the provision and access to services.
Local Economic Development	To create a conducive environment for radical economic development.
Financial Management & Viability	To effectively and efficiently manage finances and resource mobilization.
Good Governance & Public Participation	To develop and implement integrated management & governance systems
Transformation & Organizational Development	To attract, develop and retain ethical and best human capital

2.3 Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the WDM has developed and implemented a performance management system of which system is constantly refined as the integrated planning process unfolds. The Municipality targets, monitors, assesses and reviews organisational performance which in turn is directly linked to individual employee's performance.

The measurable performance objectives and indicators as per IDP priority areas are as follows:

Municipal Environmental Health:

- To provide municipal health and environmental services to the communities
- Disaster Management:
- To coordinate and support disaster management and firefighting services.

Local Economic Development & Tourism & Land & Transport:

- To unlock and stimulate the mining, tourism and agriculture potential.
 - Development and implementation of the Spatial Development Framework.
- Municipal Roads & Storm water & Basic Service Delivery:
- To strengthen district capacity to provide services
- Municipal Support & Institutional Development:
- To develop and build skilled and productive workforce

Abattoir:

- To strengthen district capacity to provide services
- Community Participation & Good Government & Sports, Arts & Culture:
- To promote effective communication and be responsive to the needs of the community.
- Social Development & Community Services:
- To provide environmental services to the community

The following table provides the main measurable performance objectives the municipality undertakes to achieve this financial year.

2.4 Overview of budget related-policies

The WDM budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies. The budget policies are being reviewed and the revised versions, if applicable, will be approved with the final budget:

2.4.1 Review of debt collection and credit control Policy

The debt collection and credit control policies as approved by Council in May 2023 has been reviewed as part of the budget process. The current adopted policy is credible, sustainable, manageable and informed by affordability and value for money, thus no changes made during the review process. The rate of collection in 2023/24 MTREF has been prepared on the basis of achieving 100% of annual billing on Abattoir services. Cash flow assumed to be 100% of the billings.

2.4.2 Asset Management

A proxy for asset consumption can be considered the level of depreciation each asset incurs on an annual basis. The Asset Management and Funding Policy is considered a strategic guide in

ensuring a sustainable approach to asset renewal, repairs and maintenance and is utilised as a guide to the selection and prioritisation of individual capital projects. In addition the policy prescribes the accounting and administrative policies and procedures relating to property, plant and equipment (fixed assets).

2.4.3 Supply Chain Management Policy

The Supply Chain Management Policy was adopted by Council in February 2023. The revised policy is attached and will be considered by Council as part of the 2023/24 Budget Approval.

2.4.4 Virement Policy

The Virement Policy aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA and the WDM system of delegations. The revised Virement Policy is attached.

2.4.5 Investment Policy and funding and reserve policy

The WDM Cash Management and Investment Policy was reviewed as part of the budget preparation process. The aim of the policy is to ensure that the WDM surplus cash and investments are adequately managed, especially the funds set aside for the cash backing of certain reserves. The Final policies are attached for consideration and approval by Council.

2.4.6 Petty Cash, Catering and S&T policy

The revised policy are attached for consideration and approval.

2.4.7 Cost Containment Policy

The purpose of the policy is to regulate spending and to implement cost containment measures at Waterberg District Municipality. The policy is in line with the Municipal Cost Containment

Regulation promulgated by National Treasury in July 2019. The proposed new policy is attached for consideration and approval by Council.

2.4.8 Expenditure Management policy

The purpose of this policy is to set out a framework for Waterberg District Municipality to deal with all expenditure related transactions, ensure that all monies due by the municipality is paid in full within the 30 days as prescribed by the Municipal Finance Management Act, and to ensure that the principles applied, as a result of this policy, will enhance and support healthy working capital position for the Waterberg District Municipality. The proposed new policy is attached for consideration and approval by Council.

2.5 Overview of budget assumptions

The equitable share formula was reviewed in the prior years to also include an allocation to WDM for councillors' salaries and this has assisted in alleviating some of the cash flow constraints of WDM, however fire-fighting, environmental health, and disaster management services remains under funded. The additional allocation received for Councillor Remuneration amount to R7 million in 2022/23 versus the budgeted 2022/23 Councillor Salaries of R9 million. The municipality's cash inflows are though still increasing by less than the fixed operating expenditure; mostly due to personnel related expenditure increasing by more than inflation and this constitutes 64% of the operating budget if all salary related benefits are included for officials and Councillors. This has necessitated restrained expenditure, especially on the IDP, to ensure that cash outflows remain within the affordability parameters of the municipality's finances.

There are five key factors that have been taken into consideration in the compilation of the 2023/24 MTREF:

- National Government macro-economic targets;
- The general inflationary outlook in terms of MFMA Circular 112 & 123;
- The impact of municipal cost drivers;
- The grants allocated in DORA; and
- The increase in the cost of remuneration.

Inflation has been assumed at 5.3% in 2023/24, 4.9% in 2024/25 and 4.7% in 2025/26.

Salary increases has been assumed at 5.4% in 2023/24, 4.9% in 2024/25 and 4.7% in 2025/26

For simplicity, the 2023/24 MTREF is based on the assumption that all investments are undertaken using fixed interest rates.

The rate of abattoir revenue collection is currently expressed as a 100% of annual billings. Cash flow is assumed to be 100% of billings, due to the majority of clients being cash clients, plus no provision for doubtful debt as old disputes have been written off and there are currently no new disputes or long outstanding debts.

It is estimated that a spending rate of 100% is achieved on operating expenditure for the 2023/24 MTREF of which performance has been factored into the cash flow budget.

It is assumed that all conditional grants will be fully spent by 30 June 2023 and all future years of the current MTREF and no roll overs have been budgeted for.

Interest on investments has been assumed at an average annual rate of 4.5 % on the basis that the total amount to be invested will reduce as the year progresses. Interest on current account has been assumed at 4.5%, which is the current prime interest rate of 7.5% minus 2.5% as agreed with our banking service provider.

2.6 Overview of budget funding

2.6.1 Medium-term outlook: operating revenue

The following table is a breakdown of the operating revenue over the medium-term:

Table 21 Breakdown of the operating revenue over the medium-term

Description R thousands	Adjusted Budget	Draft Budget 2023/24	%	Draft Budget 2024/25	Draft Budget 2025/26
Service charges - Other	1 725	1 816	5%	1 905	1 995
Interest earned	2 321	2 565	11%	2 691	2 818
Transfers and subsidies	149 330	154 572	4%	162 206	166 612
Other revenue	165	558	238%	166	173
Total Revenue	153 541	159 512	4%	166 967	171 598

Operational grants and subsidies amount to R154 million, R162 million and R166 million for each of the respective financial years of the MTREF, or 97% of operating revenue. It needs to be noted WDM is dependent on grants and there is a need to explore revenue generating projects going forward to broaden Municipality revenue base.

Investment revenue contributes to the revenue base of the WDM with a budget allocation of R2.5 million, R2.6 million and R2.8 million for the respective three financial years of the 2023/24 MTREF. It needs to be noted that these allocations have been conservatively estimated and as part of the cash backing of reserves and provisions. The actual performance against budget will be carefully monitored. Any variances in this regard will be addressed as part of the mid-year review and adjustments budget.

The tables below provide detail investment information and investment particulars by maturity.

For the medium-term, the funding strategy has been informed directly by ensuring financial sustainability and continuity. The MTREF therefore provides for a budgeted deficit of R27 million, R27 million and R31 million in each of the financial years. This deficit for 2022/23 financial is funded by available accumulated cash backed surplus and the deficit for the two outer financial years are unfunded.

2.6.2 Medium-term outlook: capital revenue

Capital Budget requirements are not included in the budget due to Funding constraints.

2.6.3 Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves understandability for councilors and management. Some specific features include:

- Clear separation of receipts and payments within each cash flow category;
- Clear separation of capital and operating receipts from government, which also enables cash from 'Ratepayers and other' to be provide for as cash inflow based on actual performance. In other words the *actual collection rate* of billed revenue., and

The above table shows that cash and cash equivalents of the WDM were largely

2.6.4 Cash Backed Reserves/Accumulated Surplus Reconciliation

This following table meets the requirements of MFMA Circular 42 which deals with the funding of a municipal budget in accordance with sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- What are the predicted cash and investments that are available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that was/is available. A shortfall (applications > cash and investments) is indicative of non-compliance with section 18 of the MFMA requirement that the municipality's budget must be 'funded'. Non-compliance with section 18 is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded (budgeted spending is greater than funds available or to be collected). It is also important to analyze trends to understand the consequences, e.g. the budget year might indicate a small surplus situation, which in itself is an appropriate outcome, but if in prior years there were much larger surpluses then this negative trend may be a concern that requires closer examination.

Table 26 MBRR Table A8 - Cash backed reserves/accumulated surplus reconciliation

DC36 Waterberg - Table A8 Cash backed reserves/accumulated surplus reconciliation											
Description	Ref	2019/20	2020/21	2021/22	Current Year 2022/23				2023/24 Medium Term Revenue & Expenditure Framework

Non current Investments	1	55	55	22	–	–	–	–	–	–	–
Cash and investments available:		69 870	47 787	28 135	11 813	12 362	12 362	12 362	24 667	(17 364)	(27 875)
Application of cash and investments											
Trade payables from Non-exchange transactions: Other		0	64	366	–	–	–	–	–	–	–
Unspent borrowing		–	–	–	–	–	–	–	–	–	–
Statutory requirements	2	(375)	(584)	(128 469)	–	–	–	–	–	–	–
Other working capital requirements	3	24 269	17 423	16 718	10 510	11 059	11 059	11 059	7 812	8 583	8 713
Other provisions		2 824	5 832	6 525	15 539	15 539	15 539	15 539	16 363	17 164	18 057
Long term investments committed	4	–	–	–	–	–	–	–	–	–	–
Reserves to be backed by cash/investments	5	–	–	–	–	–	–	–	–	–	–
Total Application of cash and investments:											
		26 719	22 735	(104 859)	26 049	26 598	26 598	26 598	24 174	25 748	26 769
Surplus(shortfall)		43 151	25 052	132 995	(14 237)	(14 236)	(14 236)	(14 236)	492	(43 112)	(54 645)

From the above table it can be seen that the cash and investments available total R24 million in 2023/24 including the projected cash and cash equivalents as determined in the cash flow forecast. The following is a breakdown of the application of this funding:

2.6.5 Funding compliance measurement

National Treasury requires that the municipality assess its financial sustainability against fourteen different measures that look at various aspects of the financial health of the municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of financial performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA. Each of the measures is discussed below.

Table 27 MBRR SA10 – Funding compliance measurement

DC36 Waterberg Supporting Table SA10 Funding measurement

References												
1. Positive cash balances indicative of minimum compliance - subject to 2												
2. Deduct cash and investment applications (defined) from cash balances												
3. Indicative of sufficient liquidity to meet average monthly operating payments												
4. Indicative of funded operational requirements												
5. Indicative of adherence to macro-economic targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)												
6. Realistic average cash collection forecasts as % of annual billed revenue												
7. Realistic average increase in debt impairment (doubtful debt) provision												
8. Indicative of planned capital expenditure level & cash payment timing												
9. Indicative of compliance with borrowing 'only' for the capital budget - should not exceed 100% unless refinancing												
10. Substantiation of National/Province allocations included in budget												
11. Indicative of realistic current arrears debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)												
12. Indicative of realistic long term arrears debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)												
13. Indicative of a credible allowance for repairs & maintenance of assets - functioning assets revenue protection												
14. Indicative of a credible allowance for asset renewal (requires analysis of asset renewal projects as % of total capital projects - detailed capital plan) - functioning assets revenue protection

2.6.5.1 Cash/cash equivalent position

The WDM forecast cash position was discussed as part of the budgeted cash flow statement. A 'positive' cash position, for each year of the MTREF would generally be a minimum requirement, subject to the planned application of these funds such as cash-backing of reserves and working capital requirements.

If the municipality's forecast cash position is negative, for any year of the medium term budget, the budget is very unlikely to meet MFMA requirements or be sustainable and could indicate a risk of non-compliance with section 45 of the MFMA which deals with the repayment of short term debt at the end of the financial year.

2.6.5.2 Cash plus investments less application of funds

The purpose of this measure is to understand how the municipality has applied the available cash and investments as identified in the budgeted cash flow statement. The detail reconciliation of the cash backed reserves/surpluses is contained in Table 25. The reconciliation is intended to be a relatively simple methodology for understanding the budgeted amount of cash and investments available with any planned or required applications to be made. This has been extensively discussed above.

2.6.5.3 Monthly average payments covered by cash or cash equivalents

The purpose of this measure is to understand the level of financial risk should the municipality be under stress from a collection and cash in-flow perspective. Regardless of the annual cash position an evaluation should be made of the ability of the WDM to meet monthly payments as and when they fall due.

2.6.5.4 Surplus/deficit excluding depreciation offsets

The main purpose of this measure is to understand if the revenue levels are sufficient to conclude that the community is making a sufficient contribution for the municipal resources consumed each year. Municipalities need to assess the result of this calculation taking into consideration its own circumstances and levels of backlogs. It needs to be noted that a surplus does not necessarily mean that the budget is funded from a cash flow perspective and the first two measures in the table are therefore critical.

2.6.5.5 Capital payments percentage of capital expenditure

The purpose of this measure is to determine whether the timing of payments has been taken into consideration when forecasting the cash position. The municipality aims to keep this as low as possible through strict compliance with the legislative requirement that debtors be paid within 30 days.

2.6.5.6 Transfers/grants revenue as a percentage of Government transfers/grants available

The purpose of this measurement is mainly to ensure that all available transfers from national and provincial government have been budgeted for. A percentage less than 100 per cent could indicate that not all grants as contained in the Division of Revenue Act (DoRA) have been budgeted for. The WDM has budgeted for all transfers.

Table 42 MBRR SA36 - Detailed capital budget per municipal vote

N/a

Table 43 MBRR SA37 - Projects delayed from previous financial year

N/a

2.11 Legislation compliance status

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

1. In year reporting

Reporting to National Treasury in electronic format was fully complied with on a monthly basis. Section 71 reporting to the Executive Mayor (within 10 working days) was compiled with and includes supporting documentation pertaining to material month end procedures

2. Internship programme

The Municipality is participating in the Municipal Financial Management Internship programme and has employed five interns undergoing training in various divisions of the BTO and Internal Audit. Although there have not been 5 at all times during the year, we endeavored to have vacancies filled in internships as soon as possible. The majority of interns have been permanently absorbed in either Waterberg District Municipality or our local municipalities.

3. Budget and Treasury Office

The Budget and Treasury Office has been established in accordance with the MFMA.

4. Audit Committee

An Audit Committee has been established and is fully functional.

5. Service Delivery and Implementation Plan

The detail SDBIP document is at a Final stage and will be finalised after approval of the 2023/24 MTREF in May 2023 directly aligned and informed by the 2023/24 MTREF.

6. Annual Report

Annual report is compiled in terms of the MFMA and National Treasury requirements.

7. MFMA Competency

Skills assessments have been conducted in terms of the Minimum Competency Gazette and special merit cases have been registered with and approved by National Treasury for which the officials are currently in the progress of obtaining those unit standards outstanding.

8. Policies

All MFMA Circulars and Regulations have been considered in the review of policies to be approved with the final budget.
